

## REMARKS

In accordance with the foregoing, claims 1-19 have been cancelled and claims 20-21 have been added, thus, claims 20-21 are pending. No new matter is included in this Amendment.

Claims 1-19 have been cancelled without prejudice or disclaimer. Newly added claims 20 and 21 have been drawn to recite a system for automatically dialing a telephone number wherein the telephone plug-in is clearly recited as a part of an information terminal. In U.S. Patent 6,091,808 to Wood, the telephone switch 16 is clearly a device with which the web browser 12 communicates through the web facility 22 in order to complete a telephone call. In claim 20, the dialing of the selected number is via a second telephone line, thus independent of the web server and the internet. As recited in claim 21, the dialing of the selected number is via the telephone line, after disconnecting the information terminal from the telephone line, which in turn disconnects the information terminal from the internet and the web server.

There being no further outstanding objections or rejections, it is submitted that the application is in condition for allowance. An early action to that effect is courteously solicited.

Finally, if there are any formal matters remaining after this response, the Examiner is requested to telephone the undersigned to attend to these matters.

If there are any additional fees associated with filing of this Amendment, please charge the same to our Deposit Account No. 19-3935.

Respectfully submitted,

STAAS & HALSEY LLP
